Subject: Wolverine and State Disposal Landfill NPL Site
final draft Wolverine ARA briefing 11 09 17.docx
deq-rrd-SFS-2016SuperfundLegislativeReport 559627 7.pdf

Joan, Tom;

I just wanted to make you aware that one of the site's involved in the Wolverine PFAS issue is the State Disposal Landfill which is a State Lead Enforcement NPL site. Don Bruce just pointed that out to me, and I didn't know if you were aware. I didn't recall that fact coming up in any of the briefings on the Wolverine site. The site is mentioned in the RA briefing paper and discussed in this news report:

http://www.mlive.com/news/index.ssf/2017/09/wolverine_beltline_landfill_pf.html . Don forwarded the attached 2016 DEQ Legislative Report on the site which provides much of the site status and history.
